Issues "Down Under": Pelvic Health and Why it Matters for Women and Men

Altered pelvic function affects both women and men. The pelvic floor is an intimate area of the body, yet its function and health can be mysterious. Many people assume common issues that arise with aging such as urinary incontinence and urgency are normal and inevitable. This class will help shed some light on what happens to pelvic health and function with age. Learn about basic anatomy and function, why women are more prone to altered pelvic function than men, why incontinence is not normal or inevitable at any age, and how pelvic health physical therapy and fitness training can help improve or even resolve symptoms including some practical strategies and tips to try at home.

Dr. Lesley Hoey is a licensed orthopedic and pelvic physical therapist and a certified health fitness specialist and yoga teacher. A Candid Discussion about Terminal Illness for Families and Caregivers

Did someone you know or love recently receive a life threatening diagnosis? Do you feel blindsided, shocked, mad, sad, depressed, hopeless or helpless as a result? Like there is nothing you can do, after all you are not a doctor. Well you are not alone! Let Alison Bramhall empower you to take action and remind you that you do have a very important role to play. Yet it can be very hard to see when you are engulfed in shock, despair and overwhelm. Alison encourages you to let the doctor(s) take care of the body, and helps guide you to focus on the mind and spirit. This very important empowering focus on mind and spirit will keep you out of overwhelm, inertia and despair. Alison will share with you her journey after learning that her father was given 25 days to live. Join her for an informal gathering to share and discuss how important it is for you to feel the pain, accept it and your feelings, and let it empower you to make the best of the time you do have together. She will share a book she wrote as part of her healing process, which Maine Medical Center has used in teaching graduating doctors end of life care. If you or anyone you know, is dealing with a diagnosis, please join her.

R.A.D. Self-Defense Class for Women

R.A.D. (Rape Aggression Defense) Systems is a functioning network of dedicated self-defense instructors that was established in 1989. This alliance of instructors believes that self-defense should be easy to learn, easy to retain, and relatively easy to employ during real confrontational situations. This alliance believes that self-defense training should be accessible and affordable for all women and children. They believe that their efforts to oppose violence will be more effective together, than as individuals. As a network they can assist one another with programs, equipment, references, experiences and insight. But most importantly, they honor each other's teachings, allowing each of them to give every participant they train, a lifetime return and practice invitation anywhere there is a R.A.D. Program being offered. This class has its foundations in education and awareness. The course includes lecture, discussion and self-defense techniques suitable for women of all ages and abilities.

Middle School Golf

U14 Middle School Golf Program (Grades 6-8)

Val Halla's Middle School Golf Program is changing slightly in 2020, aiming to operate more similarly to a High School Golf team. The Middle School Golf team will have an instructional practice every Tuesday followed by a competition/play day on Thursday. During Tuesday's practice, juniors will receive hands on instruction from their coaches at Val Halla Golf Course. This may include time spent on the Driving Range, Chipping Green, or Putting Green working on their game. Every Thursday the juniors, that are golf course ready, will participate in a match against their teammates. These matches will be assigned by the coaches based on playing ability and may range from individual matches to team matches.

Our hope is to give Middle School golfers a true golf team experience, one that many of our juniors will experience once they get to High School. Kids of any playing ability are welcomed in this program, as the coaches will tailor their instruction to the playing ability of each junior. Beginners are highly encouraged and welcome to join!

We will be running the program three times over the course of 2020. Our Spring team will start in April and end in June (before school gets out). The summer team will start at the end of June (once school is out) and will end in early August. And our Fall team will start at the end of August and end in early October.

If you have any questions about the Middle School Golf team, please email Nick Plummer, Val Halla Head Golf Professional, at nplummer@cumberlandmaine.com.
